Summary

Full-stack developer with hands-on experience building RESTful APIs and backend logic in Django (Python) and responsive interfaces in React/JavaScript. Comfortable across the stack, with working knowledge of relational databases and Git-based collaboration. Seeking a Full Stack Developer internship to build and integrate production systems such as CRM platforms.

Education

Tribhuvan University

B.Sc. in Computer Science and Information Technology

Kathmandu, Nepal

Expected Graduation: Feb, 2027

Technical Skills

Languages: Python, JavaScript (ES6+), SQL, Java, C, C++, HTML/CSS

Backend/Frontend: Django, Django ORM, RESTful APIs, React, Tailwind CSS, Bootstrap

Databases & Tools: PostgreSQL, MySQL, Git/GitHub, Docker, Linux

Data/ML: NumPy, pandas, Scikit-learn, Exploratory Data Analysis

Experience

Data Specialist

CloudFactory

Aug 2023 – Feb 2024

Kathmandu, Nepal

- Labeled and annotated data for ML training pipelines for international AI/ML clients, meeting strict speed and accuracy targets

Front-End Developer (Freelance)

Vastu Bigyan Pvt. Ltd.

Kathmandu, Nepal

- Built front-end interfaces for a client web application using HTML, CSS, JavaScript, and Bootstrap

Projects

eSEMS – Sports Event Management System | *Django, React, PostgreSQL, Docker, REST APIs*

[GitHub](#)

- Built a full-stack platform with a Django REST backend and React frontend for event creation, team/player rosters, and conflict-aware match scheduling
- Designed role-based workflows for result verification and live standings; modeled PostgreSQL data and REST endpoints, containerized with Docker Compose

Customer Churn Prediction Platform | *Python, Scikit-learn, pandas*

[GitHub](#)

- Built an end-to-end ML pipeline to predict telecom customer churn using a real-world dataset from OpenML
- Performed feature engineering and EDA, then trained and evaluated classification models on accuracy, precision, recall, and F1-score

Eventify – Event Management & Ticketing API | *Django REST Framework, PostgreSQL, Docker*

[GitHub](#)

- Built a production-style RESTful API with JWT authentication, role-based permissions (Organizer/Attendee), and a service-layer architecture for bookings
- Implemented tiered ticketing, atomic booking/inventory management, filtering, and full-text search; covered with a pytest test suite and CI pipeline

GraceLink Educational Consultancy Website | *React, Tailwind CSS, EmailJS*

[Live Site](#)

- Built a responsive, multi-section marketing site (freelance) for a study-abroad consultancy with service breakdowns, testimonials, and a lead-capture contact form

Leadership & Certifications

Certifications: Django Web Framework – Meta Back-End Developer Cert., Coursera ([Verify](#)); Introduction to Cloud Computing – Coursera ([Verify](#))

IT Head, CCRC IT Club (2021 – 2022) – organized web development webinars for high school students

General Member, CSIT Association of Nepal (2023 – Present)
